**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic is our only choice for a provider as they are able to operate off a DSL connection to bring high-speed internet to our home. If we were to go with the available broadband (AT&T or Spectrum) our building would have to do a massive work project to bring the broadband cables up to our apartment. Our apartment building was built way before broadband was available, so running a broadband cable up to our apartment would mean going through people's bathrooms, etc. Sonic is amazing because they can give us high speed internet off the DSL connection we can get through our phone lines.

Please allow competition, otherwise people in our situation would have to wait months or longer to get the cables installed for broadband.

Thank you for your consideration.

Alexandra David
